

We're coming to a hospital near you!

National Palliative Care Week 2024

National Palliative Care Week supports Australians to gain a deeper understanding of what palliative care is and encourages curiosity and openness to how we approach end-of-life.

Cancer Council WA teams, Palliative and Supportive Care Education (PaSCE) and Cancer Support Services, are collaborating with Palliative Care WA (PCWA) in recognition of National Palliative Care Week 2024.

If you are a Health Professional or consumer, come and speak to one of our representatives at our pop-up information stands at hospitals across Perth.
