

Strategic Plan 2024-2027

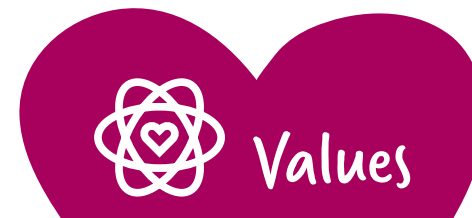

All people with life-limiting illnesses or conditions, and those important to them, are supported to live, die and grieve well.

To support and strengthen the collective voice and impact of the palliative care community, including people with a life-limiting illness or condition and those important to them, carers, health care professionals, volunteers, government and other organisations.

We aim to have a meaningful impact for people with a life-limiting illness or condition, our members and partners through raising awareness of, and increasing accessibility to, palliative care.

Compassion

We see people as being at the centre of everything we do.

Respect

We are considerate of people and their choices.

Collaboration

We achieve positive outcomes through inclusive engagement, strong relationships, and respecting the role we play in supporting people and the sector.

WE AIM TO ACHIEVE OUR VISION, MISSION AND PURPOSE BY:

Empowering community

We work to strengthen the community's capacity in death literacy, and living, dying and grieving well.

Voice for the sector

We coordinate the voice of our members, and those we serve, for improving access to palliative care, Advance Care Planning, and end-of-life care.

Developing the sector

We contribute to a highly skilled end-of-life sector that is inclusive and willing to share and learn.
