Companies who Care

Presentation: Navigator to becoming a carer

Giving you the information and challenging you to consider if you are going to be ready for a caring role.

Companies who Care (CwC) aims to build resilience for workers and ready them for a time when they may face a sentinel life event and become a carer. It is like doing a first-aid course and learning CPR. The CwC EPIC Program helps you to be better prepared for this vital moment!

- E** Education
- P** Planning
- I** Implementation
- C** Control

CwC's one-hour presentation gives you the tools to consider your home situation and undertake an assessment of your preparedness to care. You will then have the opportunity to implement strategies well in advance of a crisis.
