

STRONGER SECTOR, CARING TOGETHER

Inaugural Palliative Care WA Quarterly Members' Forum

Using Data to Achieve Better Health Outcomes

A joint presentation to demonstrate how data generated from the Palliative Care Outcomes Collaboration (PCOC) is used by St John of God Bunbury Hospital to inform practice and service delivery to achieve better patient health outcomes and increase clinicians' knowledge.

PCOC is a national program that utilises standardised clinical assessment tools to measure and benchmark patient outcomes in palliative care. Key outcomes from the latest national and WA state reports in context to national health and palliative care standards will be presented.
